

smartfin

What is Smartfin?

- Smartfin is a tool that allows you to automatically recognize fields from invoices such as amounts, dates and VAT numbers and forward them to your financial package as a booking proposal.
- Smartfin is a separate module that can be seamlessly integrated into your existing Smartdoc configuration, allowing you to run your invoices through an approval or notification flow and legally archive and retrieve them in accordance with VAT legislation.

How much time does it take to implement Smartfin?

- A typical Smartfin implementation takes 1 day. The setup of the security and workflows can simply be done via the familiar Smartdoc templater.

How accurate is Smartfin?

- Smartfin can handle an average of 86% automated filling of all booking fields without any configuration.

In what format does Smartfin send the booking information?

- Smartfin uses the European agreed standard, i.e. the UBL format. More information about this format can be found on the site <https://www.ubl.be/>.
- Some ERP and accountancy programs do not accept UBL formats. A customised programming can then provide a solution here.

Which ERP or accountancy programmes can Smartfin work with?

- Exactly Online, ProAcc & Globe
- Winbooks
- SAP Business One
- Microsoft Navision - Business Central - KPD
- Kluwer Brilliant - Expertem - Adsolut - Unit4
- ...

Can Smartfin handle scanned stacks?

- With the handy split function that became standard in Smartfin, you can easily take scanned invoices apart and remove white pages.

How can I approve invoices?

- The built-in workflow manager in Smartdoc allows you to take over the existing approval processes digitally. It works much faster and there is no risk of loss. You can better and easier monitor where invoices are stuck, and who has approved when. Every document is traced and protected against unwanted looks.

- Save time by automatically recognizing and booking invoices.
- Save time when searching for correctly archived invoices thanks to the full text search.
- Ensure risk-free financial administration in accordance with VAT legislation.
